Reality Browser

Editable Download Lockups

Edit as needed and include in print, web pages, eCommerce sites, to inform visitors they can experience your enhanced content in Augmented Reality.

One QR code redirects user to the App or Play store to help install and view quickly

Mobile DeepLinks are incuded with every AR experience.

Tapping a graphic with a DeepLink opens Reality Browser & loads an AR experience into Ground Plane for placement.

Adding DeepLinks is the same as adding a weblink.
`<a href="yourDeepLink">`View in AR`</a>`

Add your mobile deeplink to images, text or buttons so users can load the AR experienes directly from mobile.

- VIEW IN AUGMENTED REALITY
- VIEW AR EXPERIENCE
- EXPERIENCE PRODUCT IN AR
- PLACE IT AT HOME IN AR
